

TEXTURE COATING

DUPLICATE OEM TEXTURE ON INTERIOR AND EXTERIOR PARTS

- OEM Recommended
- Ready to spray
- Quick drying
- Topcoat with most refinish materials

**BUILT BETTER™
IN THE USA**

STEP 1 PREP

Lightly sand area to be textured with P320 – P400 grit.

semproducts.com/duplicating-textures

STEP 2 MIXING

AEROSOL: Agitate thoroughly! **Texture Coating** will initially dispense a thick clear liquid from the spray tip. This is normal and will stop after a few seconds of steady pressure on the spray tip.

QUART: **Texture Coating** is ready to spray. Stir thoroughly before using. If a finer texture is desired, up to 15% of high quality urethane reducer may be added.

Texture Coating

A unique blend of flexible materials for restoring the textured finish on bumpers, dashes, fiberglass tops and other plastic parts prior to painting.

Part	Size
39853	20 oz. Aerosol
39854	Quart

STEP 3 APPLY

Textures ranging from a very fine, almost undetectable pattern to a heavy or wavy effect can be achieved simply by altering the distance from the surface sprayed or by changing the speed of application. When applied with a spray gun, texture may also be altered by air pressure or fluid tip size. Apply adequate coats to achieve desired texture.

Note: Achieving desired texture often requires practice and experimentation.

Allow proper flash times to avoid losing texture: 5 – 10 minutes for aerosol and 10 – 15 minutes for quart. Also, when applying texture, never pull or release the trigger or valve over the surface being textured. This can result in an inconsistent texture varying the look of your work. Once the texture is dry to touch, lightly sand area with a gray scuff pad or P400 grit to achieve a uniform texture. Blow off dust and clean with **Plastic & Leather Prep**. **Texture Coating** is compatible under most top coats, but for best results, use **Color Coat** or **Bumper Coater**.

Note: If clogging develops, remove spray button with a twisting motion and clean with **XXX Universal Gun Cleaner** or material compliant with VOC regulations in your area.

Plastic & Leather Prep

A mild solvent blend to clean plastic and leather.

Part	Size
38351	Gallon
38353	16 oz. Aerosol
38354	Cone Top Quart

Color Coat™ Aerosols

A specialty elastomeric coating formulated to restore or change the color of most vinyl surfaces, flexible and rigid plastics, carpet and velour.

Part	Size
53 colors	16 oz. Aerosol

Bumper Coater™ Aerosols

A line of advanced coatings formulated to restore the OEM finish on automotive bumpers and plastic cladding.

Part	Size
13 colors	16 oz. Aerosol

XXX Universal Gun Cleaner

A heavy-duty cleaner that quickly removes solvent-based and waterborne coatings from spray equipment.

Part	Size
77763	20 oz. Aerosol
